

# How Does **Air Pollution** Affect You?

## Children Under age of 5

Air pollution is linked to diseases and infections that kill around 600000 children under five each year globally.

## Employee Productivity

Several researches conducted show a reduction of 15 – 20% in the worker productivity due to indoor air pollution at workplace.

## General Population

More than 3 million people Every year die as a result of outdoor air pollution - six every minute on average- and this is set to double by 2050 as fast growing cities expand -WHO

## Elderly

Elderly have weak immune system and their lungs are unable to filter out polluted air. Because of these difficulties, they are hospitalized when they are exposed to air pollution

## AN AIR PURIFIER THAT BRIGHTENS YOUR WORLD

India's first ceiling mounted air purifier with decorative lights and pm2.5 laser sensor

Noise Level  
< 55 dB

Air Flow  
527 m<sup>3</sup>/hr

CADR  
405 m<sup>3</sup>/hr

Coverage Area  
550 sq.ft.
